Essentials

Simple solutions for Lavalier microphones

Essentials

Simple solutions for lavalier microphones!

Essentials Advanced and **Original**: versatility for discrete and hidden mic placement.

'Consumables', 'disposables', 'expendables'... they go by many names and they are those single or limited use items that sound pros use on a daily basis with lavalier mics. Whether it's for sticking, fixing, hiding or protecting lavalier mics, we know that these little products are crucial for getting the job done!

Rycote understands that capturing high-quality audio with lavalier microphones can be an art-form, depending on the needs of the application. That is why we have designed a line of products for lavaliers using our signature wind and noise protection, for the best possible audio in various low-profile and hidden mic applications.

What the sound pros are saying...

Working on documentaries, I need to mic people quickly and I need to get it right first time. The new Rycote Stickies and Overcovers make this easier than ever!

Jon Gilbert
Production Sound Mixer

Rycote's new Stickies and Overcovers are an essential tool in the wireless mic box.
Ronan Hill
CAS, Production Sound Mixer

Original

The professional standard - compatible with a huge range of lavalier microphones.

Tried and trusted versatility for discrete and hidden lavalier mic placement, our Essentials 'Original' range is compatible with a huge range of lav mics and has become an essential part of the sound pro's kit-bag.

Stickies Original

Our Stickies 'Original' are double-sided, hypoallergenic, adhesive pads used to affix lavalier microphones directly onto skin or on top of clothing. The soft fabric sandwiched between the two adhesive pads prevents the adhered mic from creaking due to skin or clothing movement. Included with Overcovers and Undercovers, Stickies are designed to remain secure when attached to a dry surface and are intended to be discarded after use.

Undercovers Original

Undercovers are the perfect solution to completely hide lavalier microphones. Used with the included Stickies 'Original', these soft, fabric discs are designed to minimise the sound of clothing movement while providing light protection from air movement and plosives.

Overcovers Original

Overcovers utilise Rycote exclusive fur technology providing excellent wind-noise protection for lavalier microphones. They consist of discreet, fur Windjammers and Stickies 'Original'. With a Stickie affixed to clothing or skin, a fur Windjammer disc is affixed over the top of a lavalier microphone.

Advanced

Enhanced to offer even greater control.

Offering all the versatility of the Originals, our Essentials 'Advanced' range features enhanced materials and specifications, to work perfectly with specific industry standard mics - and to give sound pros even more control with lav mic'ing.

Stickies Advanced

Stickies Advanced are double-sided, hypoallergenic, adhesive pads used to affix lavalier microphones directly onto skin or on top of clothing. The soft fabric sandwiched between the two adhesive pads prevents the adhered mic from creaking due to skin or clothing movement. Stickies Advanced are designed to remain secure when attached to a dry surface and are intended to be discarded after use.

Key features

- Stickier hypoallergenic adhesive on both sides;
- Supplied loose with easy peel-off tabs to make use easier;
- Round – larger diameter means perfect for use with the ever-popular DPA Concealers;
- O's – allow wind protection on DPA Concealers, or folded-over with Overcovers;
- Squared – perfect for use with Sanken RM-11 (the rubber mount produced for the ubiquitous Sanken 'COS-11' mic) & for general cable management on radio mics.

Overcovers Advanced

Overcovers utilise Rycote exclusive fur technology, providing excellent wind-noise protection for lavalier microphones. They consist of a discreet, fur covering and are supplied with Stickies 'Advanced'. With a Stickie affixed to clothing or skin, a fur disc is affixed over the top of a lavalier microphone.

Key features

- 26mm – to perfectly match the DPA Concealers;
- Supplied with Stickies Adv Round, 23mm (larger than Stickies 'Original');
- Introducing new beige colour – to cater for even more applications.
