## More information

For more information on the BBG Windshield:  
<https://rycote.com/microphone-windshield-shock-mount/bbg-windshield/>

2

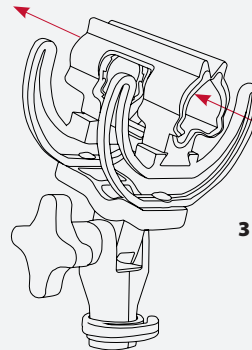

## Fitting microphone

- 1 Place microphone in the rubber Grommet
- 2 To place a more bulbous microphone in the BBG, unscrew the two cylindrical baskets and place the mic down the center of the BBG

- 1 Separate Duo-Lyre clip halves using thumb and forefinger.

- 2 Slide microphone through Duo-Lyre clip to desired position. Release the clip halves, ensuring the microphone is held firmly from the rear.

- 3 To remove the microphone, separate the clip halves using thumb and forefinger, and slide the mic out.

**NOTE:** Designed to accommodate not only cylindrical microphones, it also accommodates microphones with bulbous windscreens where the maximum head diameter is 80 mm.

*\*Boom Shock Mount not included with the BBG - bought separately*

Quick Start Guide  
BBG Windshield

# Quick Start Guide

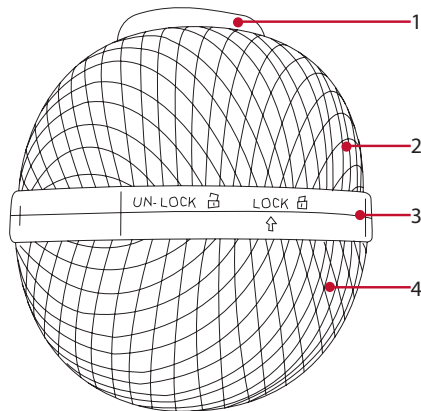

## BBG Windshield

Thanks for choosing our BBG Windshield: with the wind attenuation properties of a full windshield in a small package. The following Quick Start Guide provides you with the basics to get you started.

## Overview

Designed to slip onto the body of the microphone, the BBG Windshield allows the mic to be hand-held or shock-mounted with a Lyre® suspension. Perfect for short microphones, the BBG Windshield is suitable for low-profile boom applications as well as for use in hand-held operations and interviews.
