Overcovers & Stickies Adv

Quick Start Guide

The following guide provides you with the basics to get you started.

Overview

Simple solutions for Lavalier Mics

'Essentials' is the new name for the Rycote 'consumable' solutions, which have been designed for use with lavalier microphones. These invaluable products enable sound pros to fix, mount and hide lavalier microphones, and provide protection against unwanted noises from clothing rustle and wind.

Stickies, Adv

Double-sided, hypoallergenic, adhesive pads used to affix lavalier microphones directly onto skin or on top of clothing. The soft fabric sandwiched between the two adhesive pads prevents the adhered mic from creaking due to skin or clothing movement.

Features

- Stronger hypoallergenic adhesive on both sides.
- Supplied loose with easy peel-off tabs.
- **Round** - increased diameter, ideal for use with the ever-popular DPA Concealers.
- **O's** - allow wind protection on DPA Concealers, or folded-over with Overcovers.
- **Squared** - ideal for the Sanken RM-11 (the rubber mount produced for the Sanken 'COS-11' mic) and for general cable management on radio mics.

Overcovers, Adv

Overcovers utilise Rycote exclusive fur technology, providing excellent wind noise protection for lavalier mics. They consist of a discreet, fur covering and are supplied with Stickies. With a Stickie affixed to clothing or skin, the fur disc is affixed over the top of a lavalier mic.

Features

- Larger size (26mm) to match the DPA Concealers.
- Supplied with Stickies Adv Round, which are 23mm diameter (larger than 'Original' Stickies).
- Introducing new beige colour to cater for even more applications.

What's in the box?
