Fitting Microphone

1 Separate Duo-Lyre clip halves using thumb and forefinger.

2 Slide microphone through Duo-Lyre clip to desired position. Release the clip halves, ensuring the microphone is held firmly from the rear.

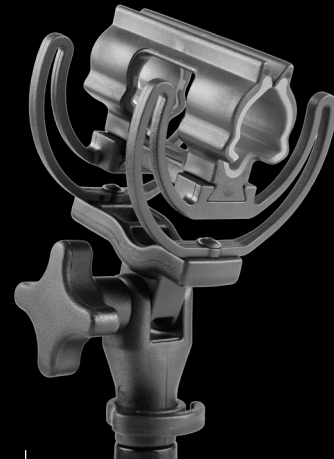

3 To remove the microphone, separate the clip halves using thumb and forefinger, and slide the mic out.

IMPORTANT: Take care not to cover microphone diaphragm/cancellation slots.

INV-7 HG MKIII

Boom Shock Mount

Quick Start Guide
InVision® Broadcast & Film

Quick Start Guide

INV-7 HG MKIII boom shock mount

Thanks for choosing our INV-7 HG MKIII: the industry-standard, indispensable boom shock mount. The following Quick Start Guide provides you with the basics to get you started.

Full details about this product are available on our website.

Overview

The INV-7 HG MKIII is suitable for a huge range of popular shotgun mics used by sound professionals worldwide. Featuring Rycote patented Duo-Lyre design, a special 'soft grip' moulded into the clip ensures your

microphone is held securely. The design's optimised Lyre spacing provides enough support for slip-on wind protection solutions such as our Classic-Softie® and Super-Softie® windshields.

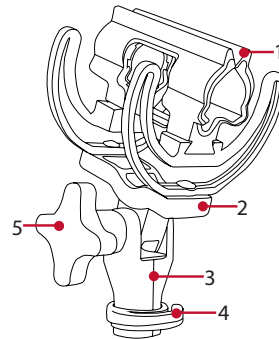

Features

- Patented Duo-Lyre technology with soft insert ensures secure, reliable mic support
- Adjustable, accurate positioning using high-quality star knob
- Microphone mass evenly distributed across shock mount for excellent balance
- Robust, reliable Rycote quality
- Weighs just 94g (without brass adaptor)

What's in the box?

- INV-7 HG MKIII
- Brass 3/8" M to 5/8" F adaptor
