boom-shock-mounts/](http://rycote.com/microphone-windshield-shock-mount/boom-shock-mounts/)

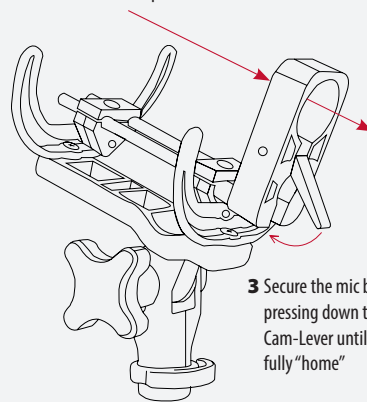

2

Fitting Microphone

1 Lift Cam-Lever up,
so that the lever is
roughly parallel with
the metal rods

2 Slide the rear of the microphone into
the Cantilever Clamp in this direction

3 Secure the mic by
pressing down the
Cam-Lever until
fully "home"

Ensure that the mic is held in the clamp as shown in
the image on the front page, i.e. not gripping the XLR
connector, but the rear of the mic itself.

To remove the microphone lift (open) the Cam-Lever
(see fig.1) to release & then slide the mic out of the
Cantilever Clamp.

INV-Lite

Elegant. Ergonomic. Balanced

Quick Start Guide
InVision® Boom Shock Mount

Quick Start Guide

INV-Lite boom shock mount

Thank you for choosing the INV-Lite! The following Quick Start Guide provides you with the basics to get you started.

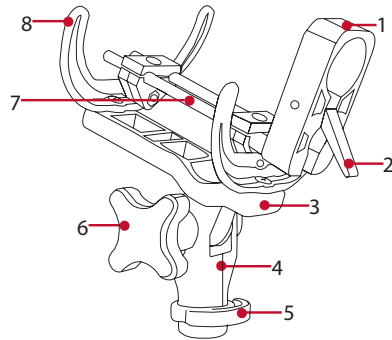

Full details about this product are available on our website.

Overview

Elegant. Ergonomic. Balanced.

The INV-Lite has been designed specifically for interior boom use, and allows for easy attachment of a foam windscreen. It provides a neat & focused solution for smaller, lighter shotgun mics.
