Fitting Softie-Lite

The Softie-Lite Windshield is designed to work with the INV-Lite shock-mount. Refer to the instructions that came with the INV-Lite shock-mount, to insert microphone.

To fit the Softie-Lite to the microphone, slide & twist on to the microphone in this direction

The rear of the mic should be held in the clamp i.e. not gripping the XLR connector. When fitting the Softie-Lite, be sure to cover the microphone cancellation slots.

To remove the Softie-Lite simply ease off by twisting and pulling in the opposite direction as shown above.

Quick Start Guide
Slip-on windshield

Quick Start Guide

Softie-Lite Windshield

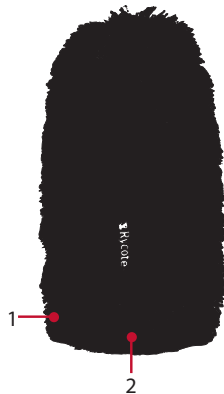

Thank you for choosing the Softie-Lite! The following Quick Start Guide provides you with the basics to get you started.

Overview

Go faster.

The Softie-Lite is a compact & lightweight slip-on windshield designed to perfectly complement the Rycote INV-Lite shock-mount, allowing for even faster/deeper boom swings indoors. Softie-Lite provides more plosive and wind protection than a standard foam, and can be used outdoors in light winds.

Product View

1. Synthetic fur outer covering
2. TPE Collar (not shown)

Full details about this product are available on our website.

Specifications

Two versions of the Softie-Lite are available; a 19mm and a 21mm variant. These are easily differentiated by the different colour TPE 'collar' which ensures a tight grip on the mic; blue for the 19mm / green for the 21mm.

Softie-Lite 19 (031103)

Compatible mics

DPA	4017B, 4017C
Sanken	CS-1e
Sennheiser	MKH 8060

Softie-Lite 21 (031104)

Compatible mics

Schoeps	MiniCMIT
---------	----------

N.B. The Softie-Lite is not suitable for shorter mics like the Sennheiser 8050 or the DPA 4018. For these mics, the INV-Lite partnered with a Rycote Baseball is the way to go!

Features

- Designed specifically for use with the INV-Lite shock-mount.
- For use with shorter, lighter shotgun mics for interior booming.
- Provides more protection against plosives and wind-noise than a foam windshield.
- Allows for outdoor use – in light winds.
- Available in two versions; for 19mm and 21mm microphones respectively.
- Lightweight & compact – just 27g and only 170cm long*.

*All measurements approximate.
